

WASTEWATER MAINTENANCE MECHANIC II
SOUTH & CENTRAL CHAUTAUQUA LAKE SEWER DISTRICT
SALARY: \$25.03 - \$32.57/HOUR + BENEFITS

Chautauqua County's South & Central Chautauqua Lake Sewer District is currently accepting applications for the full-time position (40 hours/week) of Wastewater Maintenance Mechanic II to work out of the Celoron facility. A Wastewater Maintenance Mechanic II is a skilled mechanical trade position and working supervisor at the South and Center Chautauqua Lake Sewer Districts or North Chautauqua Lake Sewer District where the incumbent both supervises and participates in the work of one or more maintenance and repair crews. The work involves responsibility for the complete overhaul, repair and replacement of a wide variety of wastewater treatment products and equipment. General instructions are received regarding tasks to be performed but leeway is permitted in planning assignment details. Work performed in under the supervision of a higher-ranking employee, and technical supervision is exercised over staff of lower rank at job sites. Does related work as required.

Typical Work Activities:

- Inspects and repairs equipment associated with pumping/vacuum stations, grinder pumps and vacuum valves;
- Supervises and participates in repairing buildings, plumbing, steam fitting, electrical equipment, mechanical equipment and sewer lines, transmission and collection systems;
- Supervises and participates in the execution of preventive maintenance tasks including maintenance schedules, logs, files and surveys as required;
- Inspects infrastructure, records findings, and recommends priority repair actions;
- Maintains preventive maintenance schedules, logs, files and surveys;
- Installs and repairs electrical wiring and fixtures;
- Paints interior and exterior surfaces, pumps, motors and related equipment;
- Operates a variety of sewer clearing equipment including flush truck;
- Cleans and operates high and/or low pressure boilers and performs a variety of facility maintenance tasks;
- Operates snow removal equipment, maintains landscaping and lawns;
- Removes obstructions from sewers;
- Inspects connections on sewer mains and manholes;
- Opens laterals in emergencies;
- Assists in the installation of new sewer lines;
- Installs catch basins and manholes;
- Checks grading of new installations;
- Cleans and flushes sewer mains and manholes;
- Operates closed circuit sewer television inspection equipment;
- May instruct personnel with regard to emergency and routine maintenance tasks;
- Trains, advises and reviews work of subordinate staff;
- May operate a NYS Class B dump and flush truck.

This position is being filled on a provisional basis pending the outcome of a future dated Civil Service examination for this title.
